

A Holistic, Natural Approach to Health

The body tends towards health until something gets in its way — stress, poor diet, lack of sleep/rest, trauma, allergies, life experiences, and many other things. This can cause imbalances in our energy system, which can cause illness.

Health Kinesiology and Reconnective Healing can help your body restore itself to health and balance using gentle and natural methods.

Ready for a Breakthrough?

Natural healing methods that help you discover and release what is holding you back from reaching your full potential

Health Kinesiology

Health Kinesiology (HK) is an acupuncture-based system that uses gentle muscle testing to identify problem areas in the body's energy system and allows us to work together to help your body function at its highest potential. We determine and correct the root cause (rather than treat symptoms) so the body can heal itself.

No two sessions are the same, even for similar symptoms. We correct imbalances using various tools including essential oils, magnets, gemstones, sound, thoughts — the possibilities are endless! Using these tools, energy corrections are done to bring the body back into a natural state of balance and harmony. Most people find a session very relaxing.

Anyone who wants to improve their quality of life can benefit from HK. Regular sessions can help to decrease stress, improve health, physical and/or mental functioning, attitude, relationships, and life potential, working on many levels to help you achieve the life you deserve!

Reconnective Healing and The Reconnection

Reconnective Healing is a form of healing that reconnects us to the fullness of the universe as it reconnects us to the fullness of our beings and of who we are, through a new set of healing frequencies.

The Reconnection is the umbrella process of reconnecting to the universe, which allows healing to take place. These healings and frequencies are brought in via a spectrum of light and information. Through The Reconnection we are able to interact and reconnect with these new levels of light and information. Unlike Reconnective Healing, The Reconnection is usually done once in a lifetime.

"If you're lucky, your healing will come in the form you anticipated; if you're really lucky, your healing will come in a form you haven't even thought of, one that the universe has in mind specifically for you."

Dr. Eric Pearl

Everyone's experience is unique. Often healings are reported in an instant, and sometimes it takes a bit longer to unfold.
